## DEVILS RENAISSANCE DEVELOPMENT, LLC

November 2, 2007

To Whom It May Concern:

IK Construction, Inc. provided design and construction services on the Prudential Center arena project in Newark, NJ valued at over \$2.5 million.

IK Construction was responsible for taking basic design concept drawings of the two iconic glass and steel cylinders and developing detailed shop drawings that included hundreds of welded and bolted unique connections. They purchased and fabricated each member in their own shop and delivered to the site and erected both cylinders on time and on budget.

Personal attention to detail both in the shop and onsite by IK ownership is their hallmark. All reporting and billing were completed in a timely and professional manner. The bonding requirement was waived by ownership to permit IK's participation.

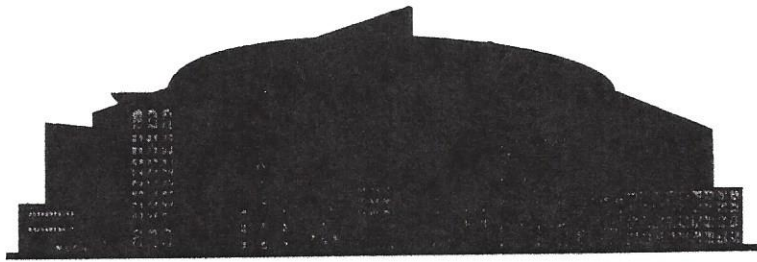

I highly recommend IK Construction, Inc. for any project. They are capable of work well above the \$2.5 million involvement they had at Prudential Center. I would not hesitate to award a contract to IK Construction at any time in the future.

Sincerely,

Jim Cima  
Owners' Representative  
Senior Vice President, Development

## DEVILS RENAISSANCE DEVELOPMENT, LLC

July 10, 2007

Mr. Ian Katwaroo  
IK Construction  
5 Cottage Street  
South Orange, NJ 07079

Dear Ian:

Devils Renaissance Development is pleased to announce that the construction of the Prudential Center will be featured as the cover story of the July/ August 2007 issue of *Development New Jersey* magazine. This article will be the centerpiece of this issue, which is focusing on the future of Downtown Newark and the impact that important projects such as ours will have on the entire city, the county and the state.

This is an opportunity for all of us to share in the spotlight and to provide recognition for the team members who are working so diligently to make the Prudential Center a success.

As a valued friend of our organization, we cordially invite you to place an advertisement that will promote your firm and your role in the project to *Development New Jersey's* monthly readership of over 3,000 New Jersey-based developers, landlords, property managers, brokers, corporate real estate and facility executives, leading design firms, top CMs/general contractors, government officials and national hoteliers. Participating firms will be identified in the article's sidebars in the Project Team Directory, will receive up to 100 free reprints of the article to serve as a marketing tool, and earn a one year complementary subscription to the magazine.

Please call Ken Guglielmo, Business Development Director, at (201) 280-0842, or Bob Greenberg, President/Editorial Director, at (201) 585-1572, x-15, to discuss the article, advertising opportunities and reprints (recent issue enclosed). The issue will close for advertising on Friday, August 3<sup>rd</sup>.

We welcome your participation.

Sincerely,

Michael T. Gilfillan  
Vice Chairman

### ***New York Construction Announces Best of '08 Winners*** ***~Newark's New Prudential Center takes home top prize~***

New York, N.Y. – ***New York Construction*** magazine is pleased to announce the winners of its Best of '08 awards program. The annual competition recognizes construction excellence from across the tri-state region.

An independent jury of industry experts judged a record 268 nominated projects earlier this week. Eligible projects were located in New York, New Jersey and Connecticut and substantially completed in the past year.

The 36 winners, including the overall Project of the Year, will be featured in the December issue of ***New York Construction*** and honored at an awards breakfast on Wednesday, December 10. The event will be held from 8 a.m. until 11 a.m. at the Marriot Marquis in Manhattan.

The jury awarded projects based on entry criteria including project management and client service, safety, design and functionality.

The entries were sorted by project type. Each category has one "Best Of" award winner and one or more awards of "Merit." The overall "Project of the Year" is determined by the jury to be the best of all entries. This year's Project of the year was given to the team that developed, designed and built the *Prudential Center* in Newark, N.J.

The winners, listed on the following pages, will be entered in the National Best of 2008 competition and judged against winning entries from other regions. Those winners, the first-ever National Best of '08 Awards, will be profiled in *Engineering News-Record*, *Constructor* as well as the 11 Regional Publications in March 2009.
